

ACRE has tried over and over to help our Pre65ers with the City Administration and although the City Council passed a Resolution to keep the subsidy for the Pre65ers the City Administration has stated on the record they are not going to. In an effort to give our Pre65ers one more chance we have listed below the Insurance Companies and Insurance Agents that tried to assist us during this year while dealing with the City Administration. Of course you have the ACA you can go out and try and shop your insurance needs and policy; but we thought we would let you know who was trying to help you behind the scenes.

We are not telling you that you have to use any of these people or Agencies. We are only letting you know these people stepped forward and tried to help ACRE. You can contact one or all of these OR none of these. It is strictly up to you and your family. If you feel you would rather stay with the City Plans and pay 100% of the premium that is your choice. Good luck in your decision and as always ACRE will be here to try and answer any question you have and point you in the right direction with any problems you may have.
